

MIGUEL FERNANDEZ

+1 (469) 758-7608 - 4645 Plano Parkway, Carrollton, TX 75010

Asteriofinol@gmail.com - <https://mr-a-5.github.io/PersonalPage/>

Resourceful Full-Stack Developer with a strong focus on productivity and clean execution. I work with Python, TypeScript, and React, and I adapt quickly to new technologies. I value collaboration and clear communication while building intuitive, user-focused web applications.

PERSONAL PROJECTS

The Review Mediator | Typescript, React, Express, Supabase, Clerk

Developed a full-stack dispute resolution platform to help businesses manage online review disputes. Built responsive React components, implemented secure Express API endpoints using Clerk for Authentication, and contributed to Supabase database design.

Trading Tool App | Typescript, Next.js, React, Clerk Authentication, HuggingFace, Supabase

Designed and deployed a full-stack web application that enables users to create accounts and select automated trading support services, including news sentiment analysis and real-time market tracking for specific companies (e.g., Amazon).

JOB EXPERIENCE

Bilingual Receptionist | Tax Mart, Dallas, TX

02/2025 - 05/2025

Among my tasks assigned were: updating daily log books with information about visitors. Maintaining an organized filing system of confidential client information in accordance with company policy. Ensuring that all necessary forms were completed accurately prior to submitting them for processing. Responding to customer inquiries in both English and Spanish, providing accurate information about services. Providing translation assistance for customers with limited English proficiency. Facilitating communication between non-English-speaking staff and English-speaking

Skills

Languages and Frameworks: Python, Java, JavaScript, TypeScript, FastAPI, React, Express, Supabase, Clerk, Next.js.

DevOps and Tools: Git, Docker.

Communicational: Customer Service, Fluent Spanish, Teamwork and Collaboration.

Education

Bachelor's degree Computer Science | University of Texas At Dallas Expected Graduation 2026

Associate in Science | Collin College 2022 - 2024
